WORK EXPERIENCE

Front-end developer, Hypergiant - *May/2021 - present* - Remote

Worked for a big streaming service where I was part of the commerce team in charge of client signup, retention and churn. On top of that I provided a solution to a configuration file maintenance using a CLI created by me with the Rust programming language.

⇥ React, HTML5, CSS, StyledComponents, jest, GraphQL, Storybook, Redux, NextJS, Typescript.

Front-end developer, CodersClan - *Sept/2020 - May/2021* - Remote

Worked for the client facing company Airfleet creating pixel perfect sites from beautiful designs.

Examples:

https://vulcan.io

https://syte.ai

https://www.kennasecurity.com/

⇢ Gatsby, React, StyledComponents/Emotion, Spring, GreenSock, HTML5 and

SCSS.

Front-end developer, CraCSS - *October/2019 - June/2020* - Córdoba, Córdoba /

Remote

CraCSS is a company that focuses on providing front-end solutions for clients abroad.

⇢ Worked for clients abroad using technologies such as Vue, HTML5 and SCSS.

Software Developer, Cbaex - *July/2018 - June/2019* - Cordoba, Cordoba

*Cbaex is a software provider with clients in Europe, we design business intelligence
websites that integrate Java, HTML and CSS with SQL and Analysis services databases.*

⇢ Developed and maintained code on all ends, from the front to the back.

⇢ Created multiple widgets into a framework to be reused anytime. ⇢

Fixed and maintained code developed by others.

⇢ Deployed websites on to clients servers using tomcat.
⇢ Was team leader for several projects where other developers where my
   responsibility.

Analyst/Developer, Dicsys - *Nov/2017 - July/2018* - Cordoba, Cordoba

*Dicsys is a big company with a software factory that provides solutions to clients across
South America.*

⇢ Was in charge of own client.

⇢ Built reports extracting data from analysis services cubes using visual basic.

⇢ Helped develop and maintain code for a website.
